FOR IMMEDIATE RELEASE  
March 5, 2010

## **PRIZE WINNING PROGRAMMERS**

The Claimsuite Team is proud of their latest award winning programmers. Congratulations to Pierre Henry who has solved a particularly tricky SQL coding conundrum at [SQLServerCentral.com](http://SQLServerCentral.com) and despite strong competition was awarded the prize of a \$100 voucher from Amazon.

Congratulations are also in order to our senior SQL Programmer Chris Stobbs, who has won another programming competition and consequently is about to zoom off on a five day 5\* holiday.

Pierre is a senior member of the Claimsuite Team within Whitespace Software, and is currently working on some exciting new developments utilising his SQL knowledge and expertise. Chris, another senior SQL programmer of the Claimsuite Team, is a specialist in SQL code optimisation improving the user experience for all of our Claimsuite clients.
